Table of Contents

Design Research & Evaluation for Healthcare Environments	-
Overview & Objectives	-
Research Team	-
Project Context	-
Understanding the Healthcare Environment	-
The Redevelopment Project	-
Concept Mapping	-
Design Intentions	-
Design Interventions and Elements	-
Spaces of Significance	-
Developing Research Questions	-
Identifying Anticipated and Unanticipated Outcomes	-
Operationalizing Outcomes	-
Stakeholder Engagement Toolkit	-
Concept Mapping Toolkit	-
Metrics Selection	-
Measurement Toolkit	-
Methodology	-
Developing a Research and/or Evaluation Approach	-
Research Plan Template	-
Evaluation Framework Template	-
Survey Design Toolkit	-
Naturalistic Observation Toolkit	-
Moving Interview Toolkit	-
Focus Group Toolkit	-
Preparing an Ethics Review Submission	-
Ethics Toolkit	-
Coordination & Execution of Data Collection	-
Communications Toolkit	-
Participant Recruitment & Engagement Toolkit	-
Data Collection Toolkit	-
Data Analysis & Interpretation	-
Data Analysis & Synthesis	-
Inferences & Interpretation	-
Data Analysis Toolkit	-
Reporting and Knowledge Translation	-
Report Template	-
Knowledge Translation Toolkit	-
Using Data to Inform Future Decisions, Interventions & Policies	-
Acknowledgements	-
